Oghma Partners Mergers and Acquisitions Review –
Overseas Buyers, UK Targets, High Multiples

Oghma Partners is pleased to announce the release of the most recent update to the Oghma Partners M&A review.

There have been several interesting and high profile deals so far in 2015, and there remains the expectation that more notable activity in the form of M&A and IPOs is still to come over the rest of the year. Oghma's Review includes commentary on recently released deal multiples, including the recent acquisition of Natural Balance Foods and of Seabrook crisps. It is clear that the UK Food and Beverage market remains a key market of interest for trade and financial buyers from the UK and abroad.

The Review contains analysis of latest deal values, activity by category and the source of buyers. The report also looks at the increasing involvement of Chinese buyers in the European Food and Beverage market.

The Review is available upon request from the Oghma Partners website and the Partners welcome any further queries from interested parties, either as regards the review or the work of Oghma Partners.
